

FELLOWSHIP IN DENTAL EDUCATION DISTANT LEARNING FOR ORAL HEALTH PROFESSIONALS AT DMIMS(DU)

Dr. Sunita Vagha

MD, FAIMER Fellow, PhD (HPE), Faculty of Nodal Center, Professor and Head,
Dept of Pathology, DMIMS, Sawangi(M), Wardha

Need: As a teacher in health profession education, there is no training in education technology prior to recruitment as a teacher. Being a health professional they are following recent advances in a concerned subject but at the same time ignoring advances in education technology. There is a recognized need for advancing in the field of health profession education as well as to bring in current trends and practices into it. However, there are limited opportunities for faculty in India to advance in the field of education technology. There is also a need to provide a platform for educators to network. According to literature there are no avenues like M.Phil. or Fellowship in health profession education or education technology by any university except for the M.Phil in nursing faculty. Keeping all this in cognizance, the School for Health Professions Education and Research (SHPER) at Datta Meghe Institute of Medical Sciences proposes the fellowship in Dental education of health professionals.

Features:

- It is an online venue where educators in the health profession can join for fellowship in Dental education.
- Datta Meghe Institute of Medical Sciences has undertaken a maiden venture to

launch fellowships in health profession education. The Fellowship in Health Profession Education has been started with goal to create trained professional for strengthening the health education.

- This course is designed to assist participants to develop a board understanding of fundamental principles, concepts, trends and issues related to health Professions education Fellowship in medical education.
- This fellowship is designed to cater to all various faculties of Health profession education by an umbrella approach. As there are five Health profession streams in the University, thus the School for Health Professions Education and Research (SHPER) at Datta Meghe Institute of Medical Sciences (Deemed University), Sawangi (Meghe), Wardha is launching fellowship in Dental education for the Oral Health professionals which comprises of a Basic course and advanced course.
