# Course Details

- A program designed to help post graduate students as well as clinicians enter the world of implantology. The ITI-VSPM course caters to the special needs of dentists towards learning with an emphasis on adopting an evidence-based approach for all aspects of this science- that too at the very beginning of their career in implantology.
- This innovative learning model combines ON-SITE learning via lectures, hands on, live surgery sessions and ONLINE reading. The ITI membership provided as part of the program package opens up doors to an enriching journey into implantology with a full range of ITI offerings (Study Clubs, Scientific events, Annual conferences, Online Academy, scientific literature) to follow.
- **Benefits for the participants:**
  1. Lectures, hands on and live surgery.
  2. Surgical placement of implants.
  3. ITI Membership with full benefits.
  4. Online reading and assessments.
  5. ITI Certification of attendance.

# Course Details
