How are the programs conducted by the institute for addressing the issues like gender equality, environment care, human values etc?

51 responses

How do you rate the virtues of professionalism and ethics imparted by the curriculum?

51 responses

What are the modifications you suggest for the curriculum and syllabus implementation by the institute?

Few selected suggestions are

- Postings should be from 2nd year
- I would suggest there should be an activity which involves PPT formation and explanation of the topics by the students by making groups which are coming in the theory examination and is completely within the syllabus so that everyone tries to go through with the topic and will be prepared for examination point of view.
- To upload the ppts of all subjects that are taught in classes

Do you think time allotted by the university for learning each subject in terms of theory and practical hours is adequate? If no, please suggest changes.

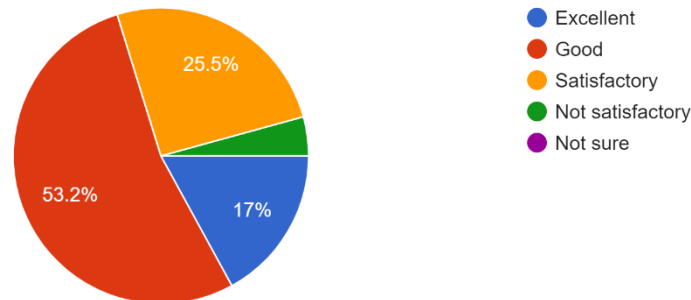

Few suggested changes are:-

- No. there should some time gap between theory and practical, so as to makes feel relieved
- The time allotted by the university for learning each subject is perfectly adequate.

2) Teachers feedback on curriculum

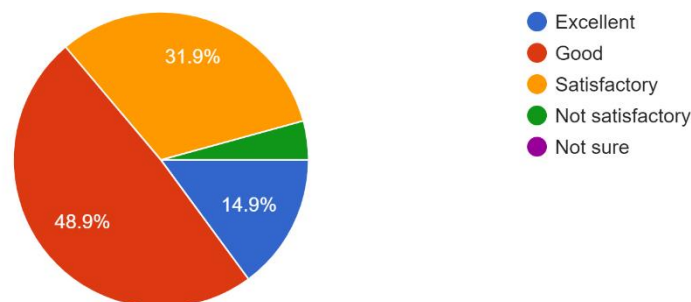

How do you think is the design and completeness of the curriculum?

47 responses

How is the curriculum to develop the technical knowledge and skills of the students?

47 responses

- Active experiential learning must be incorporated
- Needs more practical oriented teaching

How are the modern dental practices incorporated into the course?

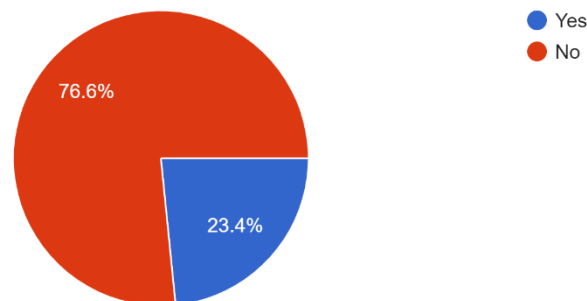

47 responses

- Student's involvement through scientific activities should encouraged

Do you think there should be any change in the design of the curriculum?

47 responses

- We need to update the syllabus keeping in mind the latest trends in dental treatment
 - Competency based dental education as per medical curriculum
 - Curriculum should be updated accordingly with the advancement made.
 - Newer technologies like CAD CAM should also be implemented
 - Incorporate contemporary techniques like composite filling as compared to obsolete techniques like amalgam
 - Clinical work quota and nature of work should be practically feasible and as per contemporary standards
 - Student teaching should be focused more on new technology in their field.
 - It should be more updated keeping in accordance with the current times
 - training on simulators
-

How are the modern practices in dentistry incorporated in the curriculum?

9 responses

- We still use amalgam more than a composite practice

What are the modification you suggest for the curriculum?

- Emphasis more on medical education rather only focusing on dental

Does the curriculum design and implementation result in producing competent dental graduate/postgraduate in the present scenario? If not, please suggest necessary changes?

- Add digital scanner regarding Ortho treatment
